We are literally just a 1 minute stroll to the heart of beautiful local shops in the village of Ixworth. Our purpose is to create communities that enhance the quality of life and give rise to new beginnings, new futures. We are dedicated to high standards of care, which enable residents to enjoy life to the full, as individuals, in happy comfortable and safe surroundings.

Everyone is different, so we adapt our care to suit your needs.

*"I feel so very at home here. My friends and I
look forward to each and every day."*

Our first class care

We provide relationship centred care , placing the individuals needs at the very centre of the care we provide.

We build a relationship with every resident, listening to their stories, learning about their lives, to create a picture of the whole person. Residents and where appropriate their families, are involved as far as practical in the decisions regarding their care. Emphasis on all aspects of care is the manager's primary concern and together with the experienced team of qualified staff, all adhere to rigorous standards with internal audits and checks.

Our friendly care team

Our staff are passionate about, and take pride in, what they do. Our team has been chosen for their compassionate and caring natures as well as their qualifications and experience in the delivery of relationship-centred care. We support our team with regular training and development.

Nutrition

Good nutrition is a vital part for health, independence and well being.

When residents move in to our care home, we talk to them and their relatives to establish what their likes and dislikes are. Food and drink are visible, available and accessible throughout the day.

With a wonderful choice of delicious and wholesome dishes on offer, it's no wonder meal times are so popular. Whether you eat amongst friends or choose to dine in the comfort of your own room, our dedicated catering staff will ensure the experience is always a pleasurable one.

Special diets can be catered for. Good nutrition is vital part of our care provision, and our talented chefs create everything on the premises using fresh seasonal produce. From delicious new dishes to classic old favourites, there's something for every taste at meal times.

"The food here is simply delicious. I look forward to eating each and every meal every day."
